Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance:

Upon reconsideration of the closest prior art of record in light of the experimental results herein the specification, as well as the arguments presented by applicants' representatives, the Examiner notes that the closest prior art of record does indeed utilize leuco crystal violet, and that applicants have demonstrated that the inventive formulations containing a compound of formula (I), as presently claimed, exhibit sufficient color generation after UV exposure and reduced unfavorable color generation during heat lamination, versus the comparative samples containing leuco crystal violet.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
